

Falcon Construction benefits Guildford's young people

Outside Tesco's Express in Bridge Street James Croke of Falcon Construction Services handed over a cheque for £500 to Guildford YMCA. The cheque was received by YMCA hostel residents Zoe and Mary, along with staff members John Cooper and Tanya Collins. They are supporting Zoe, Mary and other residents working towards their Duke of Edinburgh Bronze Awards.

Falcon Construction Services recently completed the development of the new store. Contracts Manager James Croke said, "When we've worked in an area we like to make a donation to a local charity. With the YMCA just down the road it was an easy choice, and we're delighted to help your work with vulnerable young people."

The generous donation is timely. Tanya Collins said, "We're really grateful for this - we need to buy camping equipment for the Expedition section of the Duke of Edinburgh award. Our young people have been working hard on other challenges and we weren't sure how we were going to source tents and the other equipment they need. Now we can plan the expedition for later in the summer."
